Flo Pro Fresh Water Series Waterjets are well engineered high quality jet units. Flo Pro products will interchange with 770 series Hamilton and Kodiak pumps.

### Features:
- Bissalloy intake grill
- Stronger intake housing
- No inspection hatch (better flow)
- Removable intake impellor housing
- No exposed stator studs (stronger housing)
- Stainless stator vain inserts (removable)
- Stainless impellers (2205)
- Posi/nozzles two sizes with removable inserts
- Split duct style reverse bucket
- Oil bath front bearing housing

**Note:** The table above provides a detailed listing of parts and their quantities for the Flo Pro Marine Freshwater Jet models, including both two and three stage options. Each part is referenced by a specific number (Part #) and is listed with its corresponding quantity (Qty) and price (Price). The table includes descriptions of various components such as intake and delivery tubes, base assemblies, and various sealing elements. The document also highlights the importance of specific parts like air bleed hoses, reverse yokes, and Intake Base Assemblies, indicating their respective quantities (Qty) and prices (Price) as well. This comprehensive list is designed to assist in the replacement and maintenance of marine freshwater jet systems.
